

# BarFly® 400

The BarFly 400 joins a special family of thin profile Kino Flo fixtures that can display soft, cool beauty light for HD and film productions. The BarFly 400 system boasts the same 2" depth as the BarFly 200, but doubles the light output. Using Kino Flo's new True Match® 55 Watt QFL daylight and tungsten lamps, it's brighter than a 1,000 Watt tungsten softlight, but draws only 4 amps of power on 120VAC. Kino Flo has designed several other features into the BarFly 400:

- Built-in white reflector
- Built-in head extension
- Removable Gel Frame and Louver
- Removable Center Mount options
- Individual lamp control
- HO/Standard switching
- Flicker-free remote operation
