Diva-Lite® 401 Gets Refreshed

Burbank, CA – The **Diva-Lite 401** fixture receives some internal modifications to improve manufacturing and servicing. The overall look and operation do not change. Like the previous model, the new Diva-Lite 401 includes full-range dimming, 2/4 lamp switching.

The Diva-Lite 401 available in 120VAC replaces the Diva-Lite 415 Universal as of July 2017. The fixture runs cool and flicker free, yet energy efficient at only 2.16A.

Diva-Lites come complete with removable gel frame and 90° honeycomb louver. A 60° honeycomb louver is available as an accessory. The fixtures are available in 1-Unit and 2-Unit kits.
