Lighting Systems

# 4BANK

Honeycomb Louvers  
Universal VAC

# 4Bank & 4Bank DMX

**K**ino Flo reintroduces its award-winning 4Bank portable lighting systems with new ballasts and new honeycomb louvers. The 4Bank can be used anywhere in the world with its new universal voltage regulation from 100-240VAC. The 4Bank fixture is brighter than a 1,000W softlight, yet draws only 2.6A (120VAC), 50% less than the previous model! With new graphics, new color coded connectors and new power switches, the lighter weight ballast still has the same classic features: flicker-free, instant-on, dead quiet operation, individual light control and HO/Standard switching. Color temperature doesn't shift when light levels change. The newly designed 4Bank will continue to remain a favorite among lighting professionals. Features include:

## The 4-Lamp Fixture

- Built-in Barndoors
- Removable Lamp Harness and Reflector
- Bracket for Honeycomb Louvers
- Twist-on, locking Center Mount
- True Match® lamps

## The High Output Ballast

- 4Bank & 4Bank DMX
- Universal input 100-240VAC
- HO/Standard switching
- Individual lamp control
- Auto terminate for DMX
- Flicker-free, remote operation
- Instant-on, dead quiet
