New! FreeStyle LED Tubes

BURBANK, CA – Kino Flo's **FreeStyle LED Tubes** join the Kino Flo family line of LED soft lights.

Specially designed for the FreeStyle T44 fixture, the FreeStyle LED tubes display Kino Flo's True Match white light and RGBWW color management system found in Kino Flo's LED softlight fixtures. When used inside the T44 fixture with the built-in intensifying reflector the LED tubes project light at a 100° beam angle. The lightweight LED tubes can also operate independently outside the fixture with just the harness and project soft light at a 310° beam angle. For further versatility, the FreeStyle LED tubes can operate remotely using an adapter cable and single extensions.

The FreeStyle tubes' unique built-in aluminum rail system acts as access points for mounting options allowing the LED tubes to be rigged into custom lighting designs. Mounting accessories include an Anchor, Baby Pin (16mm), Wall Plate, Hanging Kit and Hanging Wire.

MTP-F100
FreeStyle Tube Mount - Anchor

MTP-F101
FreeStyle Tube Mount – Baby Pin (16mm)

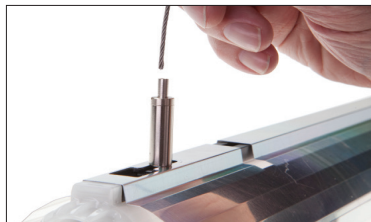

MTP-F102
FreeStyle Tube Mount – Wall Plate

MTP-F103
FreeStyle Tube Mount
– Hanging Kit, 4pk

MTP-F103W
FreeStyle Tube Mount
– Hanging Wire, 50ft

LED tube using Hanging Kit (**MTP-F103**) and Hanging wire (**MTP-F103W**). Insert into T-slot. Insert wire all the way down. Pull up wire until it latches. Press down to release wire.

LED tube mounted with Baby Pin mount (**MTP-F101**) and grip head.

Operating on the same software technology as with all Kino Flo's LED fixtures, the FreeStyle remote controller has four Menu options, one white, two color menus and FX (Effects). Features include Kino Flo presets and custom settings from **2500K to 9900K**, **Green/Magenta** control, **Hue Angle** and **Saturation**, **RGB** (red, green and blue) and **FX** (Effects) control features. The new FreeStyle controller also comes with standard DMX and wireless DMX (Lumen Radio®), and universal voltage input 100-240VAC or 24VDC.

Key features are:

- Kelvin presets & custom settings, 2500K-9900K
- Manual & DMX Dimming
- DMX wireless (Lumen Radio®)
- Green/Magenta control
- Dial in any color through Hue Angle and Saturation
- Kino Flo presets and Gel presets
- Individual Red, Green, Blue (RGB) control
- FX (Effects) control
- Dimming without color shift
- Universal input 100VAC-240VAC or 24VDC
- Flicker-free, quiet operation
- Lightweight LED tubes can operate independently from fixture
- FreeStyle tube mounting options

Located in Burbank, CA, Kino Flo Lighting Systems was founded in 1987 and is a manufacturer of high quality LED soft lighting equipment for use in motion picture lighting, TV broadcast, video and photography industries. In 1995 Kino Flo received a technical achievement award from the Academy of Motion Picture Arts and Sciences for the development of color-correct lamps for film.
