New! Kino Flo Mounts

Burbank, CA – Kino Flo Lighting reintroduces its Universal Twist-On Mounts with a new design.

The redesigned Twist-On fixture mounts feature ratchet handles with new bearings for more gripping power, and new jaws for improved fixture orientation. Newer units are easily identifiable with yellow spacers.

The new mounts come with a choice of 3/8" pin, 5/8" Baby Receiver and 5/8" Baby Receiver Short. New mounts will be available *December 1, 2015*.

The new models **MTP-KF41, MTP-BC41 & MTP-BF41S** replace the previous models (MTP-KL41, MTP-BL41 & MTP-BL41S) and will work with new and old fixtures that have the Twist-On mating plates.
